

INTOXICATION WITH HEAVY METALS

Urinary Porphyrin Profile

[Back to Autism](#)

Statistic relation between **dental amalgam, vaccins** and **chelation results**, shows that **intoxication by heavy metals** - especially **mercury** – is frequently **pathogenic component of the autistic syndromes**.

Urinary Porphyrin Profile

Porphyrins are formed as **intermediates in the biosynthesis of heme**. In humans and other mammals, porphyrins with eight, seven, six, five, and four carboxyl groups are excreted in the urine in a well-established pattern.

Porphyrins Urinary Measurement allows us to confirm the break down of an intoxication.

Its profile offers an **etiologic orientation** (heavy metals, organic compounds).

CLINICAL INDICATION :

Effect of overloaded toxic elements on organism, Mercury Body Burden evaluation, Intoxication to heavy metals (Pb Hg As Al), Impact of the dental alloys, Surveilliance of chelating therapy.

Research toxic compounds in :

Chronic fatigue Syndrome, Chemical Hypersensitivity, Fibromyalgia, Neurological , Cognition, Learning troubles, Immune Deficit.

7 metabolites evaluated :

- Uroporphyrins I & III
- 7-Carboxyporphyrin
- 6-Carboxyporphyrin
- 5-Carboxyporphyrin
- Precoproporphyrins
- Coproporphyrins I & III

10 ml first morning urine.

Method :
=> *HPLC*

How to do this test ?

How to do the tests ?

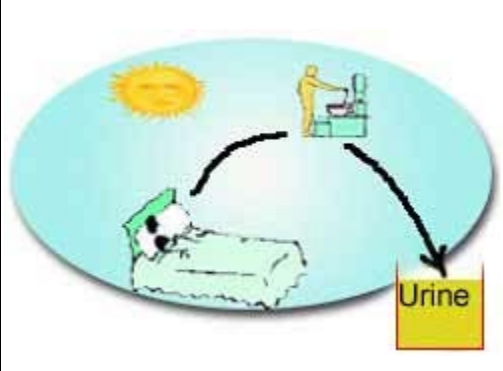

1) Kit Ordering

Call, Fax or Email :
Laboratoire Philippe Auguste
119 avenue Philippe Auguste
75011 Paris **France**
Tel : (33)1.43.67.57.00
Fax : (33)1.43.79.00.27
Email : [contact @labbio.net](mailto:contact@labbio.net)

2) Urine Collection - First Morning Urine

	<p>- Put your name on urine tube</p> <ol style="list-style-type: none">1. Withdraw 10 ml of urine by drawing the piston until the level.2. Break the piston. The tube is then completely sealed.3. Slip the tube(s) into an envelop then mail it.
---	--

3) Put all the samples + your personal data + mode of payment in our envelop and send them to us.

Laboratoire Philippe Auguste
119 avenue Philippe Auguste
75011 Paris France

4) Your test results in 2 weeks
